THE PRESIDENT 1967

ABRAHAM LINCOLN
HIGH SCHOOL
DENVER, COLORADO

REFLECTIONS

A reflection is defined as: the return of light or sound waves from a surface; the production of an image by or as if by a mirror; the action of bending or folding back; a reflected part; something produced by reflecting; a thought, idea or opinion formed or a remark made as a result of meditation.

The pages of this book are the mirror in which the reflection of yourself as you are now and have been this year will stand before your scrutiny.

These things will certainly be found: Lincoln's school spirit was tremendous, the academic achievements were of the highest quality, opportunities for recreation and learning were many and fulfilled their purpose, and that Abraham Lincoln high school is just as proud of you as you are of it.

Remember the Spirit Contest? Remember the football games and basketball games? And track, baseball, Homecoming, Proms, club activities? Whether we, as a school, were high or low in team standing--as individuals we were always on top. These pages are all a part of the spirit that WAS Lincoln this past year.

Reflect upon this when you turn the pages of this book--this that is the mirror of the mighty Lancers.

As "middlemen" in the school, Junior Council is faced mainly with raising money, making plans and looking forward to their senior year. They represent the Junior class in the student government and function as a sounding board for class problems and suggestions. They perform actively in the school as representatives of the same. Mrs. Cross, who is sponsor of this group has been an excellent guide.

"Smith, do ya really think. . . ?

Some people just aren't couth!

Darn hair spray!

"Boy, these girls! Yak! Yak! Yak!"

"But, Mrs. Cross, I really don't know what happened to the money!"

SOPHOMORE CLASS COUNCIL

Sophomore Council, eternally the youngest organization in the school, has the responsibility of orientation of the class to the rigors of high school activity. Their success is evident in the fact that they become juniors and continue to serve their school and class. The purpose of this council is to help conduct the activities of the class and provide a mediary between other classes and teachers. Congratulations to Mr. Ortez for his fine guidance of this group.

Girls Gymnastics Club is divided into three groups. The largest group is composed of all girls in the club, it's purpose is to give them a chance to learn in all of the six fields. The second group consists of girls that instruct gymnastics at the local junior highs. The last group is made up of girls that are more advanced. They compete in at least three meets a year. This year the gymnasts did an outstanding job, and placed high in all of the meets.

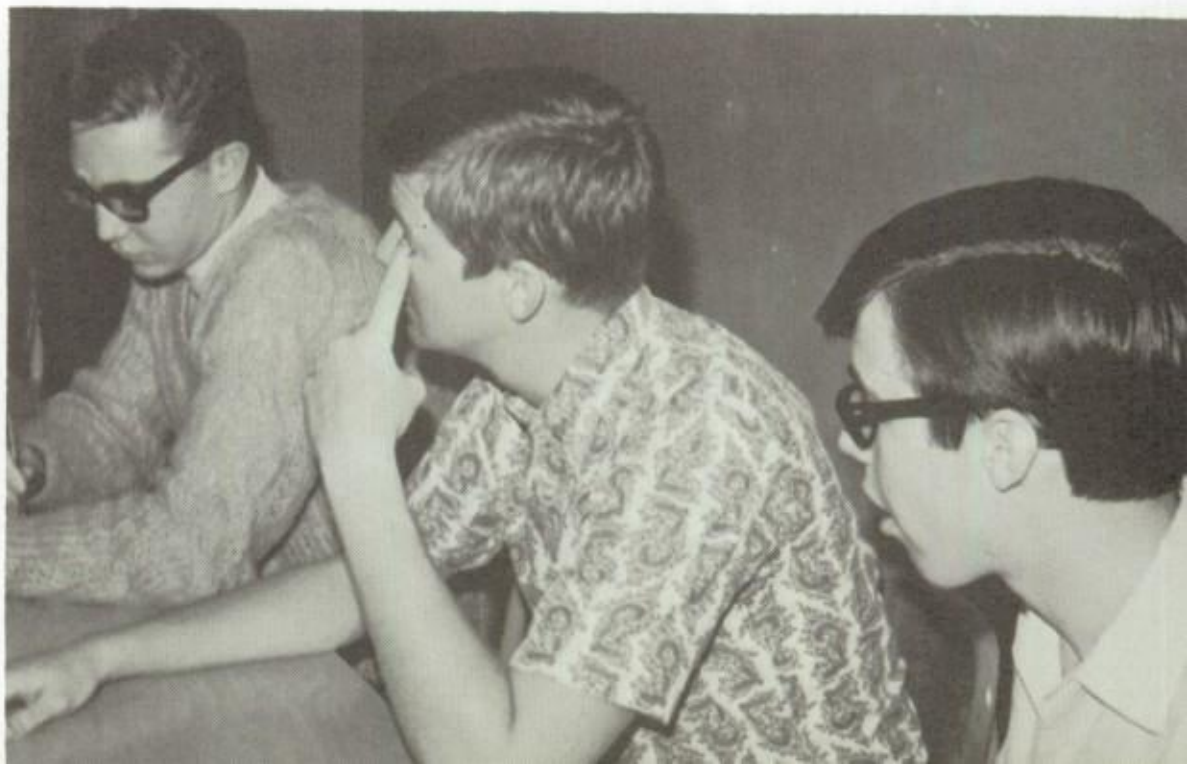
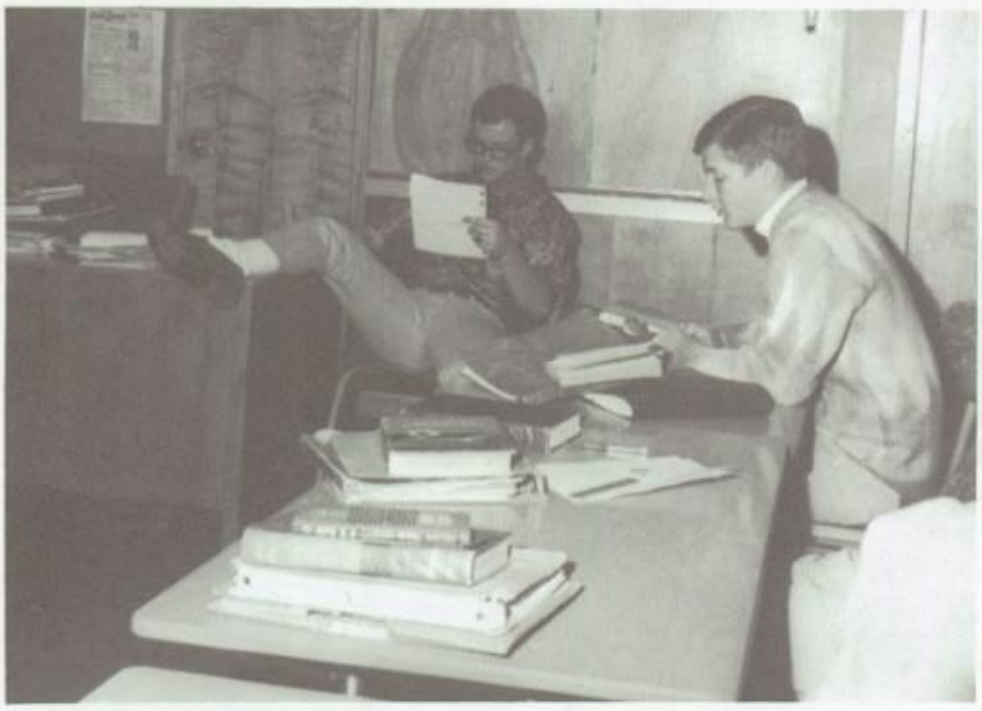
Hear no evil, speak no evil, see no evil!

Well, I think!





As usual, Council hard at work!

The Student Council meets every day, and is headed alternately by the Head Boy and the Head Girl. The representatives learn practical knowledge of democratic procedure, while helping solve school problems. They promote school spirit and participation in school activities, coordinate club activities, encourage high standards among the students and insure good student-faculty relations. One important purpose is to act as the official representative for the wishes of the student body.

TOUCHSTONE

Members of TOUCHSTONE, the creative writing magazine written and published by students, this year formed a club. Participants have thus broadened their activities to include the study of published work of professional writers as well as the literary efforts of Lincoln students. They have welcomed outside speakers, shared criticism and evaluation of their own writing, and selected submissions to appear in the TOUCHSTONE magazine. With due credit given to sponsors, Mrs. Toepfer and Mr. Broten, the new success of TOUCHSTONE is a tribute to the literary talents at Lincoln.
